

Oh thank you G-d for all your peace
and for all the lovely things we plead.
We the Jews have asked for so much,
thank you for giving us food, drinks like punch.
For all of the wonderful things you gave us
we thank you for all the delicious pizza crust
For all the peace you gave us Jew
and for the shelter that keeps us warm like stew.
You have gave me so much peace in my ^{life}
So I have to thank you so much!

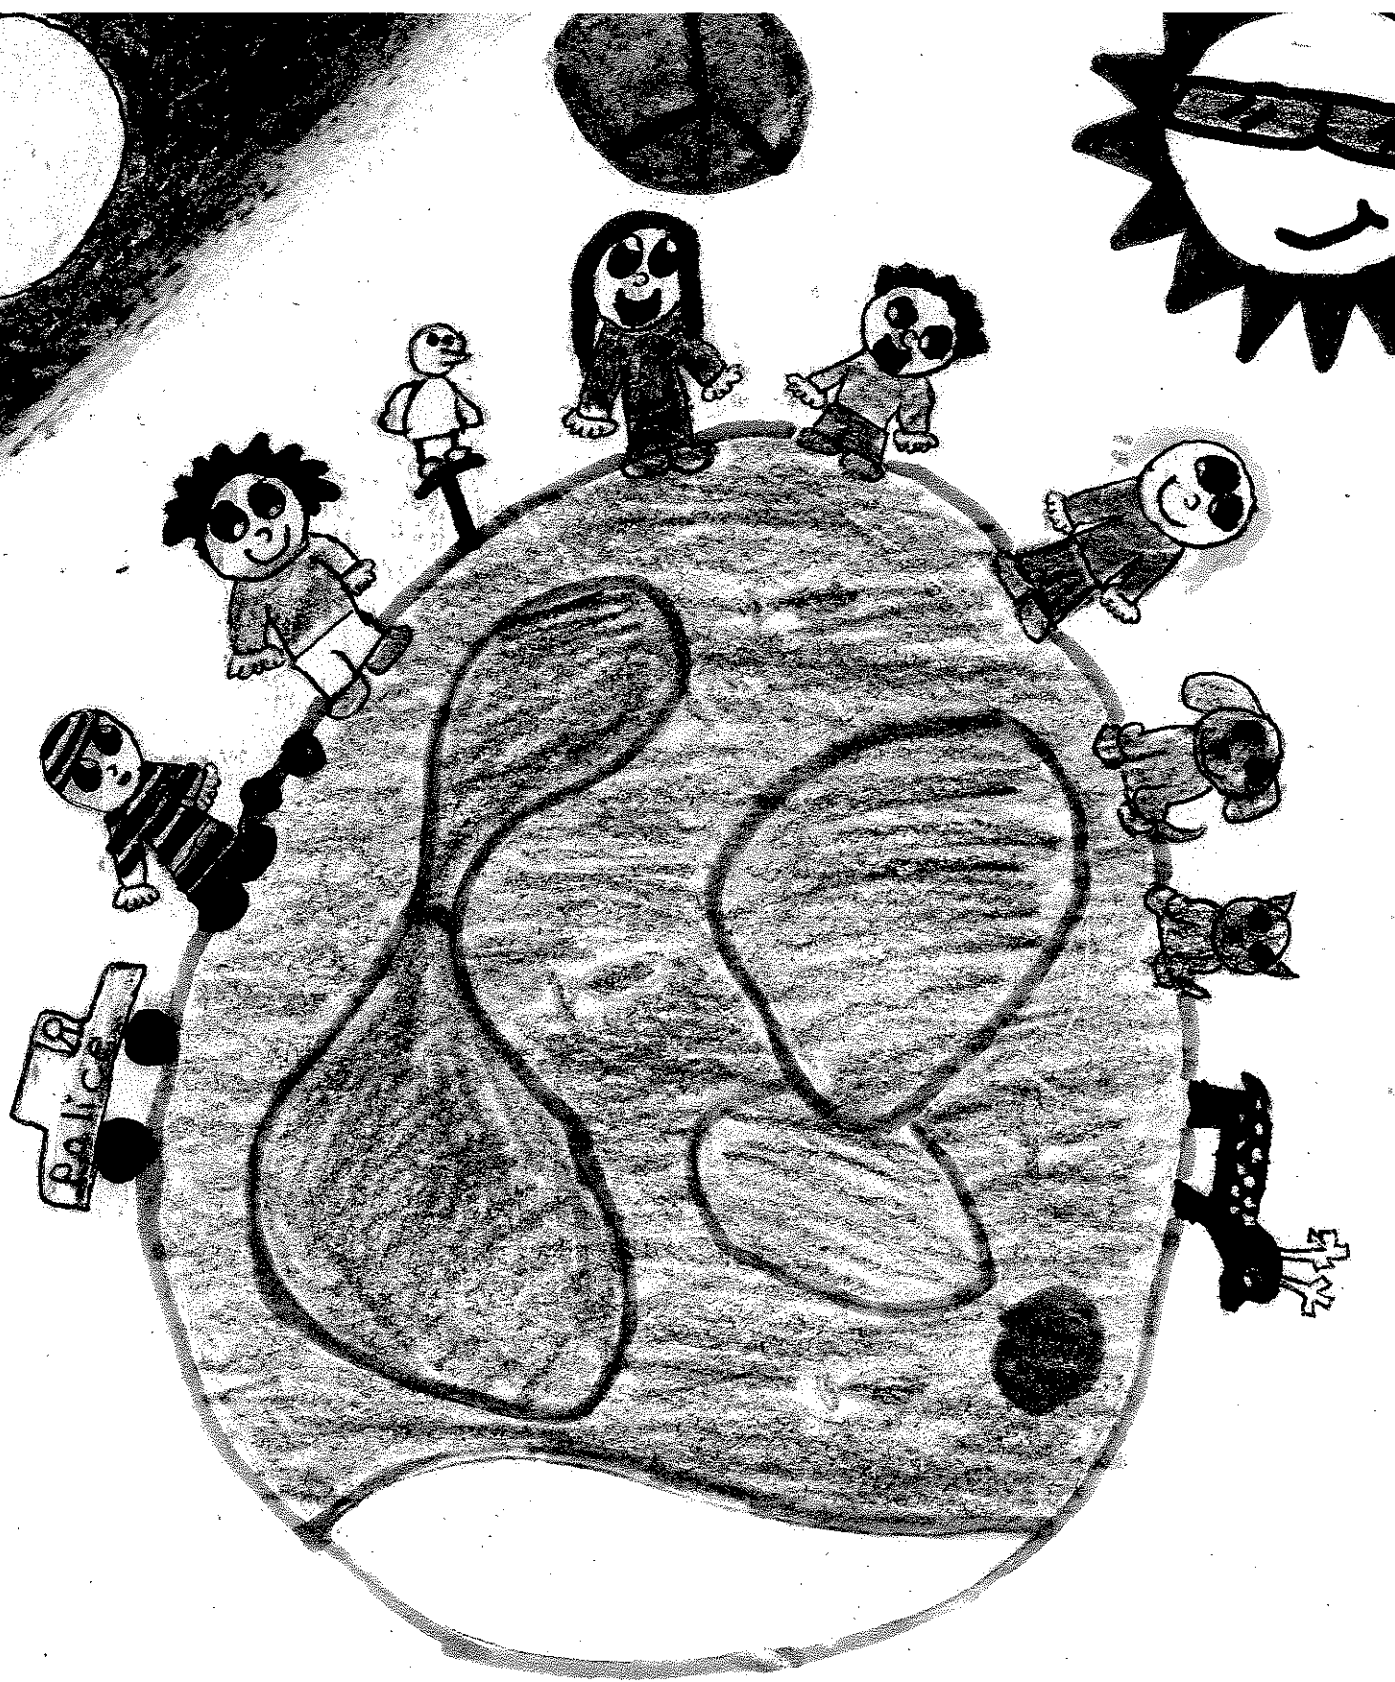

PEACE

THANK YOU

I think that peace is about not fighting and quietness and resting. I think that it is good to pray for peace because when we do pray, we are letting G-d realize how important it is to us. I sometimes pray for peace because me and my brother fight a lot. I love peace because it is so wonderful and we can be free without having to worry about war and we can just have fun. I also think peace is about making new friends. I think that the whole world should forget about war and join together with your enemies and become friends again.

My picture is about everyone making peace
